

Personalized Running Training Plan

Target: 28.0km Race | 18 Weeks

Generated on May 09, 2026

Current Weekly Mileage	23.0 km
Target Distance	28 km Trail · 1010 m vert
Training Duration	18 weeks
Peak Week Mileage	35.8 km

Training Plan Overview

Week	Mileage (km)	Progress
Week 1	23.1	65%
Week 2	22.8	64%
Week 3	23.7	66%
Week 4	24.4	68%
Week 5	15.5	43%
Week 6	24.2	68%
Week 7	24.5	68%
Week 8	26.1	73%
Week 9	28.0	78%
Week 10	29.8	83%
Week 11	32.1	90%
Week 12	20.4	57%
Week 13	33.3	93%
Week 14	35.0	98%
Week 15	35.0	98%
Week 16	35.8	100%

Week 17	25.3	71%
Week 18	17.5	49%

Week 1 - 23.1 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	6.9 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	2.0 km	High	Hill repeats: 10x30sec steep hill repeats with walk down recovery.
Thursday	Easy	6.9 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	7.3 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 6.3 km · conversational
- 6 × 100 m strides [R] — 105 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 0.5 km warm-up [E] — 500 m · easy
- 10 × 30 s hill [R] — 30s · hard uphill
- Walk down recovery — 1:00 · walk
- 0.5 km cool-down [E] — 500 m · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 6.3 km · conversational
- 6 × 100 m strides [R] — 105 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 7.3 km · conversational

■ Strength Training (2 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Establish a consistent training schedule - same time daily builds habit
- Develop pre-run warm-up routine: 5min walk + dynamic stretches
- Get fitted for proper running shoes at specialty running store
- Power-hike the steepest 10% of your hills in training — it's a race tactic, not a weakness.

Week 2 - 22.8 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	6.8 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	2.0 km	High	Hill repeats: 10x30sec steep hill repeats with walk down recovery.
Thursday	Easy	6.8 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	7.2 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 6.2 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 0.5 km warm-up [E] — 500 m · easy
- 10 × 30 s hill [R] — 30s · hard uphill
- Walk down recovery — 1:00 · walk
- 0.5 km cool-down [E] — 500 m · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 6.2 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 7.2 km · conversational

■ Strength Training (2 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Keep shoulders relaxed and arms swinging forward, not across body
- Have backup plans for bad weather: treadmill, indoor alternatives
- Use foam rolling 3-4 times per week, focusing on legs and hips
- Eat your first gel by minute 30, even if you don't feel hungry. Train the gut.

Week 3 - 23.7 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	7.1 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	2.0 km	High	Hill repeats: 10x30sec steep hill repeats with walk down recovery.
Thursday	Easy	7.1 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	7.5 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 6.5 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 0.5 km warm-up [E] — 500 m · easy
- 10 × 30 s hill [R] — 30s · hard uphill
- Walk down recovery — 1:00 · walk
- 0.5 km cool-down [E] — 500 m · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 6.5 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 7.5 km · conversational

■ Strength Training (2 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Build mental toughness by pushing through discomfort in final miles
- Create contingency plans for bad race moments (cramps, bad weather)
- Experiment with different types of fuel during long runs
- Run at least one long run on the actual race terrain, or as close as you can find.

Week 4 - 24.4 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	7.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	2.0 km	High	Hill repeats: 10x30sec steep hill repeats with walk down recovery.
Thursday	Easy	7.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	7.8 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 6.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 0.5 km warm-up [E] — 500 m · easy
- 10 × 30 s hill [R] — 30s · hard uphill
- Walk down recovery — 1:00 · walk
- 0.5 km cool-down [E] — 500 m · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 6.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 7.8 km · conversational

■ Strength Training (2 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Test race pace in shorter segments during long runs
- Focus on hip strengthening: clamshells, side-lying leg raises
- Vary running surfaces to reduce repetitive stress on joints
- Power-hike the steepest 10% of your hills in training — it's a race tactic, not a weakness.

Week 5 - 15.5 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	3.6 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Easy	3.6 km	Low	Easy recovery run. Should be conversational pace.
Thursday	Easy	3.6 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	4.7 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 3.0 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Easy · Session blocks

- Easy run [E] — 3.6 km · conversational

■ Thursday — Easy · Session blocks

- Easy run [E] — 3.0 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 4.7 km · conversational

■ Strength Training (3 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each

- Calf stretch — 30 sec each

Trail Stability — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

Core — 25-30 min (Intermediate)

Warm-up:

- 5 min easy walk
- Cat-cow — 10 reps
- Leg swings — 10 each side

Exercises:

- Plank — 3×45-60 sec hold
- Side Plank — 3×30 sec each side
- Dead Bug — 3×12 each side
- Bicycle Crunch — 3×15 each side
- Superman Hold — 3×30 sec

Cool-down:

- Child's pose — 30 sec
- Supine twist — 30 sec each side
- Hip flexor stretch — 30 sec each side

■ Training Tips

- Do a dress rehearsal run at race pace for shorter distances
- Practice race day decision making in training scenarios
- Choose socks based on distance - thicker for longer races
- Eat your first gel by minute 30, even if you don't feel hungry. Train the gut.

Week 6 - 24.2 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	5.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Easy	5.3 km	Low	Easy recovery run. Should be conversational pace.
Thursday	Easy	5.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	8.3 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 4.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Easy · Session blocks

- Easy run [E] — 5.3 km · conversational

■ Thursday — Easy · Session blocks

- Easy run [E] — 4.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 8.3 km · conversational

■ Strength Training (3 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each

- Calf stretch — 30 sec each

Trail Stability — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

Core — 25-30 min (Intermediate)

Warm-up:

- 5 min easy walk
- Cat-cow — 10 reps
- Leg swings — 10 each side

Exercises:

- Plank — 3×45-60 sec hold
- Side Plank — 3×30 sec each side
- Dead Bug — 3×12 each side
- Bicycle Crunch — 3×15 each side
- Superman Hold — 3×30 sec

Cool-down:

- Child's pose — 30 sec
- Supine twist — 30 sec each side
- Hip flexor stretch — 30 sec each side

■ Training Tips

- Review your training log to see how far you've come
- Start reducing mileage while maintaining some intensity
- Practice race day meditation or breathing exercises
- Run at least one long run on the actual race terrain, or as close as you can find.

Week 7 - 24.5 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	5.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Easy	5.3 km	Low	Easy recovery run. Should be conversational pace.
Thursday	Easy	5.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	8.6 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 4.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Easy · Session blocks

- Easy run [E] — 5.3 km · conversational

■ Thursday — Easy · Session blocks

- Easy run [E] — 4.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 8.6 km · conversational

■ Strength Training (3 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each

- Calf stretch — 30 sec each

Trail Stability — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

Core — 25-30 min (Intermediate)

Warm-up:

- 5 min easy walk
- Cat-cow — 10 reps
- Leg swings — 10 each side

Exercises:

- Plank — 3×45-60 sec hold
- Side Plank — 3×30 sec each side
- Dead Bug — 3×12 each side
- Bicycle Crunch — 3×15 each side
- Superman Hold — 3×30 sec

Cool-down:

- Child's pose — 30 sec
- Supine twist — 30 sec each side
- Hip flexor stretch — 30 sec each side

■ Training Tips

- Plan your race morning timeline: wake up, breakfast, travel
- Plan parking or transportation to race venue
- Stick to your pre-race nutrition routine exactly as practiced
- Power-hike the steepest 10% of your hills in training — it's a race tactic, not a weakness.

Week 8 - 26.1 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	4.9 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Interval	5.8 km	High	Find a technical trail with rocks, roots, and uneven surface. Run 3.6km at moderate effort, focusing on foot placement, quick cadence, and staying light on your feet.
Thursday	Easy	4.9 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	10.5 km	Medium	Run 10.5km on trails at easy effort. In the final 3 km, pick up to tempo effort — push the climbs, float the descents. Finish with purpose, not a sprint.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 4.5 km · conversational
- 6 × 100 m strides [R] — 70 m · fast, controlled

■ Wednesday — Interval · Session blocks

- 1.125 km warm-up [E] — 1.1 km · easy
- 3.6 km [E] — 3.6 km · easy
- 1.125 km cool-down [E] — 1.1 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 4.5 km · conversational
- 6 × 100 m strides [R] — 70 m · fast, controlled

■ Saturday — Long · Session blocks

- Easy aerobic base [E] — 7.9 km · conversational
- 3 km fast finish [T] — 2.6 km · comfortably hard → hard

■ Strength Training (2 sessions)

Lower Body — 30-40 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side

- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Use extra mental energy for visualization and race planning
- Picture crossing the finish line with your goal time
- Stay hydrated but don't overdo it
- Eat your first gel by minute 30, even if you don't feel hungry. Train the gut.

Week 9 - 28.0 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	5.4 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	5.8 km	High	Warm up 1.25km easy on flat. Find a trail hill (6-10% grade). Run 6-8 x 3 min hard uphill, driving arms and shortening stride. Jog back down for recovery. Cool down 1.25km easy.
Thursday	Easy	5.4 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	11.4 km	Medium	Run 11.4km on the hilliest trail you can find. Keep effort even throughout — push the climbs at threshold effort, recover on the descents. Walk uphill steeper than 15% grade.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 4.9 km · conversational
- 6 × 100 m strides [R] — 76 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 1.25 km warm-up [E] — 1.2 km · easy
- 6 × 180 s hard [H] — 3:00 · hard
- 1.25 km cool-down [E] — 1.2 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 4.9 km · conversational
- 6 × 100 m strides [R] — 76 m · fast, controlled

■ Saturday — Long · Session blocks

- Rolling hills — steady [E] — 11.4 km · by effort, not pace

■ Strength Training (2 sessions)

Lower Body — 30-40 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side

- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Focus on running form and efficiency in final workouts
- Focus on feeling good and strong rather than pushing limits
- Believe in your training and all the work you've done
- Run at least one long run on the actual race terrain, or as close as you can find.

Week 10 - 29.8 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	5.8 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	5.8 km	High	Warm up 1.25km easy on flat. Find a trail hill (6-10% grade). Run 6-8 x 3 min hard uphill, driving arms and shortening stride. Jog back down for recovery. Cool down 1.25km easy.
Thursday	Easy	5.8 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	12.4 km	Medium	Run 12.4km on trails at easy effort. In the final 3 km, pick up to tempo effort — push the climbs, float the descents. Finish with purpose, not a sprint.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 5.3 km · conversational
- 6 × 100 m strides [R] — 78 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 1.25 km warm-up [E] — 1.2 km · easy
- 6 × 180 s hard [H] — 3:00 · hard
- 1.25 km cool-down [E] — 1.2 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 5.3 km · conversational
- 6 × 100 m strides [R] — 78 m · fast, controlled

■ Saturday — Long · Session blocks

- Easy aerobic base [E] — 9.4 km · conversational
- 3 km fast finish [T] — 3.0 km · comfortably hard → hard

■ Strength Training (2 sessions)

Lower Body — 30-40 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side

- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Leave everything on course - no regrets
- Break race into smaller segments mentally
- Thank supporters, volunteers, and fellow racers
- Power-hike the steepest 10% of your hills in training — it's a race tactic, not a weakness.

Week 11 - 32.1 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	8.1 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Interval	2.5 km	High	Warm up 1.25km on flat. Find a trail descent (5-8% grade, 400-600m). Run 6-8 downhill repeats focusing on quick cadence, slight forward lean, and soft landings. Hike back up for recovery. Cool down 1.25km easy.
Thursday	Easy	8.1 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	13.4 km	Medium	Run 13.4km on the hilliest trail you can find. Keep effort even throughout — push the climbs at threshold effort, recover on the descents. Walk uphill steeper than 15% grade.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 7.5 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Interval · Session blocks

- 1.25 km warm-up [E] — 1.2 km · easy
- Warm up 1.25km on flat. Find a trail descent (5-8% grade, 40 [E] — easy
- 1.25 km cool-down [E] — 1.2 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 7.5 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Rolling hills — steady [E] — 13.4 km · by effort, not pace

■ Strength Training (2 sessions)

Lower Body — 30-40 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Practice surging and changing pace during training runs
- Study race course elevation profile and plan accordingly
- Practice running in expected weather conditions
- Eat your first gel by minute 30, even if you don't feel hungry. Train the gut.

Week 12 - 20.4 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	4.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Easy	4.3 km	Low	Easy recovery run. Should be conversational pace.
Thursday	Easy	4.3 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	7.5 km	Medium	Run 7.5km on trails at easy effort. In the final 3 km, pick up to tempo effort — push the climbs, float the descents. Finish with purpose, not a sprint.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 3.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Easy · Session blocks

- Easy run [E] — 4.3 km · conversational

■ Thursday — Easy · Session blocks

- Easy run [E] — 3.7 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Easy aerobic base [E] — 5.6 km · conversational
- 2 km fast finish [T] — 1.9 km · comfortably hard → hard

■ Strength Training (3 sessions)

Lower Body — 30-40 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side
- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

Plyometric — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog
- Leg swings — 10 each side
- A-skips — 2 x 20m

Exercises:

- Single-Leg Hop (forward) — 3×8 each side
- Lateral Bound — 3×8 each side
- Low Box Jump — 3×8
- Split Squat Jump (alternating) — 3×6 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Standing quad stretch — 30 sec each

■ Training Tips

- Test your complete fueling strategy multiple times
- Practice with exact race day fuels during training
- Develop strategies for pushing through marathon wall
- Run at least one long run on the actual race terrain, or as close as you can find.

Week 13 - 33.3 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	6.4 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	5.8 km	High	Warm up 1.25km easy on flat. Find a trail hill (6-10% grade). Run 6-8 x 3 min hard uphill, driving arms and shortening stride. Jog back down for recovery. Cool down 1.25km easy.
Thursday	Easy	6.4 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	14.7 km	Medium	Run 14.7km on the hilliest trail you can find. Keep effort even throughout — push the climbs at threshold effort, recover on the descents. Walk uphill steeper than 15% grade.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 5.9 km · conversational
- 6 × 100 m strides [R] — 81 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 1.25 km warm-up [E] — 1.2 km · easy
- 6 × 180 s hard [H] — 3:00 · hard
- 1.25 km cool-down [E] — 1.2 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 5.9 km · conversational
- 6 × 100 m strides [R] — 81 m · fast, controlled

■ Saturday — Long · Session blocks

- Rolling hills — steady [E] — 14.7 km · by effort, not pace

■ Strength Training (2 sessions)

Lower Body — 30-40 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side

- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Focus on building your aerobic base before adding intensity
- Create a sleep schedule targeting 7-9 hours consistently
- Consider GPS watch for tracking pace and distance accurately
- Power-hike the steepest 10% of your hills in training — it's a race tactic, not a weakness.

Week 14 - 35.0 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	6.7 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Interval	5.8 km	High	Find a technical trail with rocks, roots, and uneven surface. Run 3.6km at moderate effort, focusing on foot placement, quick cadence, and staying light on your feet.
Thursday	Easy	6.7 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	15.8 km	Medium	Run 15.8km on trails at easy effort. In the final 3 km, pick up to tempo effort — push the climbs, float the descents. Finish with purpose, not a sprint.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 6.2 km · conversational
- 6 × 100 m strides [R] — 79 m · fast, controlled

■ Wednesday — Interval · Session blocks

- 1.125 km warm-up [E] — 1.1 km · easy
- 3.6 km [E] — 3.6 km · easy
- 1.125 km cool-down [E] — 1.1 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 6.2 km · conversational
- 6 × 100 m strides [R] — 79 m · fast, controlled

■ Saturday — Long · Session blocks

- Easy aerobic base [E] — 12.8 km · conversational
- 3 km fast finish [T] — 3.0 km · comfortably hard → hard

■ Strength Training (2 sessions)

Lower Body — 30-40 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side

- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Trail Stability — 25-30 min (Intermediate)

Warm-up:

- 5 min easy jog on grass/trail
- Ankle circles — 10 each side
- Single-leg stand — 20 sec each (eyes closed)

Exercises:

- Single-Leg Balance (eyes closed) — 3×30 sec each side
- Lateral Step-Down (slow) — 3×10 each side
- Nordic Curl Negative — 3×5
- Lateral Bounds (stick landing) — 3×8 each side
- Single-Leg Deadlift — 3×10 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Ankle circles — 10 each side

■ Training Tips

- Land mid-foot rather than heel striking for better shock absorption
- Find a training partner or group for accountability on tough days
- Prioritize sleep - it's when your muscles repair and strengthen
- Eat your first gel by minute 30, even if you don't feel hungry. Train the gut.

Week 15 - 35.0 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	5.0 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	5.8 km	High	Warm up 1.25km easy on flat. Find a trail hill (6-10% grade). Run 6-8 x 3 min hard uphill, driving arms and shortening stride. Jog back down for recovery. Cool down 1.25km easy.
Thursday	Easy	5.0 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	19.2 km	Medium	Run 19.2km on trails at easy effort. In the final 3 km, pick up to tempo effort — push the climbs, float the descents. Finish with purpose, not a sprint.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 4.6 km · conversational
- 6 × 100 m strides [R] — 74 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 1.25 km warm-up [E] — 1.2 km · easy
- 6 × 180 s hard [H] — 3:00 · hard
- 1.25 km cool-down [E] — 1.2 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 4.6 km · conversational
- 6 × 100 m strides [R] — 74 m · fast, controlled

■ Saturday — Long · Session blocks

- Easy aerobic base [E] — 16.2 km · conversational
- 3 km fast finish [T] — 3.0 km · comfortably hard → hard

■ Strength Training (2 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side

- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Plyometric — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog
- Leg swings — 10 each side
- A-skips — 2 x 20m

Exercises:

- Single-Leg Hop (forward) — 3×8 each side
- Lateral Bound — 3×8 each side
- Low Box Jump — 3×8
- Split Squat Jump (alternating) — 3×6 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Standing quad stretch — 30 sec each

■ Training Tips

- Practice running on tired legs with back-to-back training days
- Practice positive self-talk during challenging training sessions
- Stay hydrated throughout day, not just around training
- Run at least one long run on the actual race terrain, or as close as you can find.

Week 16 - 35.8 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	6.8 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Hill	3.0 km	High	On a hilly trail loop: power-hike steep uphill for 5 min (arms pumping, long strides), then run the flats and downhill. Repeat 5 times. Plan for ~60-75 min total.
Thursday	Easy	6.8 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	19.2 km	Medium	Run 19.2km on trails at easy effort. In the final 3 km, pick up to tempo effort — push the climbs, float the descents. Finish with purpose, not a sprint.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 6.2 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Hill · Session blocks

- 1.5 km warm-up [E] — 1.5 km · easy
- On a hilly trail loop: power-hike steep uphill for 5 min (a [E] — easy
- 1.5 km cool-down [E] — 1.5 km · easy

■ Thursday — Easy · Session blocks

- Easy run [E] — 6.2 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Easy aerobic base [E] — 16.2 km · conversational
- 3 km fast finish [T] — 3.0 km · comfortably hard → hard

■ Strength Training (2 sessions)

Lower Body — 25-35 min (Intermediate)

Warm-up:

- 5 min easy walk or light jog
- Leg swings — 10 each side
- Hip circles — 10 each direction

Exercises:

- Split Squat — 3×10 each side

- Single-leg Glute Bridge — 3×12 each side
- Single-leg Calf Raise — 3×12 each side
- Step-ups — 3×10 each side
- Side-lying Leg Raise — 3×15 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Standing hamstring stretch — 30 sec each
- Calf stretch — 30 sec each

Plyometric — 20-25 min (Intermediate)

Warm-up:

- 5 min easy jog
- Leg swings — 10 each side
- A-skips — 2 x 20m

Exercises:

- Single-Leg Hop (forward) — 3×8 each side
- Lateral Bound — 3×8 each side
- Low Box Jump — 3×8
- Split Squat Jump (alternating) — 3×6 each side

Cool-down:

- Pigeon pose — 45 sec each side
- Calf stretch — 30 sec each
- Standing quad stretch — 30 sec each

■ Training Tips

- Learn your different paces: easy, tempo, interval, race pace
- Include core work 3x per week: planks, side planks, dead bugs
- Listen to your body - distinguish between discomfort and pain
- Power-hike the steepest 10% of your hills in training — it's a race tactic, not a weakness.

Week 17 - 25.3 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	5.5 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Easy	5.5 km	Low	Easy recovery run. Should be conversational pace.
Thursday	Easy	5.5 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	8.8 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 4.9 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Easy · Session blocks

- Easy run [E] — 5.5 km · conversational

■ Thursday — Easy · Session blocks

- Easy run [E] — 4.9 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 8.8 km · conversational

■ Strength Training (1 session)

Core — 15-20 min (Intermediate)

Warm-up:

- 5 min easy walk
- Cat-cow — 10 reps
- Leg swings — 10 each side

Exercises:

- Plank — 2×45-60 sec hold
- Side Plank — 2×30 sec each side
- Dead Bug — 2×12 each side
- Bicycle Crunch — 2×15 each side
- Superman Hold — 2×30 sec

Cool-down:

- Child's pose — 30 sec
- Supine twist — 30 sec each side

- Hip flexor stretch — 30 sec each side

■ Training Tips

- Simulate race start times in your training (early morning practice)
- Plan your nutrition timing: when to take gels, water, electrolytes
- Break in new shoes gradually - never wear new shoes on race day
- Eat your first gel by minute 30, even if you don't feel hungry. Train the gut.

Week 18 - 17.5 km

Day	Workout	Distance	Intensity	Notes
Monday	Easy	3.5 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Tuesday	Recovery	-	Very_Low	Active recovery: Easy walking to promote blood flow
Wednesday	Easy	3.5 km	Low	Easy recovery run. Should be conversational pace.
Thursday	Easy	3.5 km	Low	Easy run with strides: main run easy, finish with 6x100m accelerations.
Friday	Rest	-	Rest	Light stretching and mobility work (15-20 minutes)
Saturday	Long	7.0 km	Medium	Long run at conversational pace. Focus on endurance and mental toughness.
Sunday	Rest	-	Rest	Rest day with foam rolling focus (15-20 minutes)

■ Monday — Easy · Session blocks

- Easy run [E] — 2.9 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Wednesday — Easy · Session blocks

- Easy run [E] — 3.5 km · conversational

■ Thursday — Easy · Session blocks

- Easy run [E] — 2.9 km · conversational
- 6 × 100 m strides [R] — 100 m · fast, controlled

■ Saturday — Long · Session blocks

- Long run [E] — 7.0 km · conversational

■ Strength Training (1 session)

Core — 15-20 min (Intermediate)

Warm-up:

- 5 min easy walk
- Cat-cow — 10 reps
- Leg swings — 10 each side

Exercises:

- Plank — 2×45-60 sec hold
- Side Plank — 2×30 sec each side
- Dead Bug — 2×12 each side
- Bicycle Crunch — 2×15 each side
- Superman Hold — 2×30 sec

Cool-down:

- Child's pose — 30 sec
- Supine twist — 30 sec each side

- Hip flexor stretch — 30 sec each side

■ Training Tips

- Remind yourself of tough workouts you've completed successfully
- Use extra time for sleep, nutrition, and mental preparation
- Write down your race goals and review them daily
- Run at least one long run on the actual race terrain, or as close as you can find.

■ ■ Your Personalized Nutrition Plan

■ Your Daily Nutrition Targets

Nutrient	Daily Target	Notes
Calories	1899.0 kcal	Based on your training volume
Protein	126.0 g	For muscle repair and recovery
Carbs	230.0 g	Primary fuel for running
Fat	53.0 g	For hormone production and health
Fiber	35 g	For digestive health and satiety

■ Your Personalized Meal Options

Meal Type	Recommended Options	Key Benefits
Breakfast	• Protein Power Oatmeal (P:35g, F:12g) • Greek Yogurt Parfait (P:28g, F:10g) • Protein Pancakes (P:32g, F:7g)	Energy for morning runs
Lunch	• Chicken Noodle Soup (P:24g, F:6g) • Chicken Caesar Wrap (P:34g, F:6g) • Lentil and Vegetable Soup (P:20g, F:18g)	Sustained afternoon energy
Dinner	• Lamb Chops with Mint (P:38g, F:8g) • Baked Ziti (P:32g, F:8g) • Indian Butter Chicken (P:38g, F:4g)	Muscle recovery overnight
Snack	• Greek Yogurt with Honey (P:24g, F:6g) • Edamame with Sea Salt (P:16g, F:8g) • Veggies and Hummus (P:8g, F:10g)	Quick energy between meals
Post_Workout	• Berry Recovery Smoothie Bowl (P:34g, F:12g) • Chicken and Rice Recovery Bowl (P:42g, F:6g) • Banana Protein Smoothie (P:32g, F:8g)	Optimal recovery nutrition

■ Your Personalized Nutrition Tips

- Focus on whole foods and minimize processed items
- Time your meals to optimize training performance and recovery
- Stay hydrated throughout the day, not just during runs
- Include a variety of colorful vegetables for micronutrients
- Build a solid nutritional foundation with quality foods

■ Your Personalized Hydration Plan

Timing	Target	Notes
Daily Base	2345.0ml	Maintain throughout the day
Pre-Run	300-500ml, 2 hours before	2 hours before training
During Run	200-400ml per hour	Adjust for intensity and heat
Post-Run	150% of fluid lost during exercise	Replace lost fluids
Race Day	400-600ml per hour	With electrolytes for longer events

■ Complete Nutrition Guide for Runners

■ Pre-Run Fuel (30-90 minutes before)

- Quick Energy: Banana + 1 tbsp peanut butter
- Sustained Energy: Oatmeal with berries + honey
- Light Option: Toast with avocado + sea salt
- Hydration Focus: Smoothie with spinach, banana, almond milk
- Race Day: Plain bagel with jam (low fiber)

■ Post-Run Recovery (within 30 minutes)

- Protein + Carbs: Chocolate milk (8oz)
- Muscle Repair: Greek yogurt + granola + berries
- Hydration + Energy: Coconut water + banana
- Complete Recovery: Protein smoothie (1 scoop protein, banana, spinach)
- Quick Option: Recovery bar with 3:1 carb:protein ratio

■■ Comprehensive Daily Meal Plans

Meal	Training Day Options	Rest Day Options
Breakfast	Oatmeal with nuts, berries, honey Whole grain toast + eggs + avocado Smoothie with spinach, banana, protein powder Greek yogurt + granola + berries Breakfast burrito with black beans, eggs	Greek yogurt parfait Smoothie bowl with granola Overnight oats with chia seeds Whole grain pancakes with fruit Avocado toast with poached eggs
Lunch	Quinoa bowl with roasted vegetables + chicken Large salad with salmon + sweet potato Turkey wrap with hummus + vegetables Lentil soup + whole grain bread Buddha bowl with tahini dressing	Vegetable soup + whole grain bread Lentil salad with feta cheese Caprese salad with whole grain pasta Chickpea salad sandwich Quinoa tabbouleh with grilled vegetables
Afternoon Snack	Apple + almond butter Trail mix + dried fruit Protein smoothie with banana Rice cakes with hummus Energy balls with dates + nuts	Hummus + vegetable sticks Cottage cheese + peaches Greek yogurt with honey Mixed berries + nuts Dark chocolate + almonds
Pre-Run Fuel	Banana + peanut butter Toast with jam + honey Energy gel + water Dates + almond butter Oatmeal bar + sports drink	Light fruit + water Herbal tea + honey Electrolyte drink Coconut water Rice cakes with banana
Post-Run Recovery	Chocolate milk + banana Protein shake with berries Greek yogurt + granola Recovery smoothie with spinach Cottage cheese + pineapple	Green smoothie + protein Greek yogurt + nuts Overnight oats + protein powder Quinoa bowl + fruit Eggs + whole grain toast
Dinner	Grilled salmon + brown rice + broccoli Lean beef + roasted vegetables + quinoa Chicken stir-fry with brown rice Turkey meatballs + whole wheat pasta Fish tacos with slaw + beans	Vegetable stir-fry + tofu Pasta primavera with olive oil Black bean burgers + sweet potato Lentil shepherd's pie Roasted vegetable + chickpea curry

■ Hydration Strategy

- Daily Base: 2.5-3L water + electrolytes

- Pre-Run: 500ml 2 hours before, 250ml 30 minutes before
- During Run: 150-200ml every 15-20 minutes (over 60 minutes)
- Post-Run: 500-750ml per kg of body weight lost
- Electrolyte Sources: Coconut water, sports drinks, salt tabs
- Urine Color Test: Pale yellow = well hydrated

■ Race Week Nutrition Strategy

- 7 Days Before: Increase carbs to 70% of calories
- 3 Days Before: Carb-load with pasta, rice, potatoes
- 2 Days Before: Reduce fiber, avoid spicy foods
- Day Before: Simple carbs, hydrate well, early dinner
- Race Morning: Familiar breakfast, 2-3 hours before start
- During Race: Energy gels every 45 minutes + water

■ Complete Injury Prevention Guide

■ Warm-up Protocol (10-15 minutes)

- Dynamic Stretches: Leg swings, walking lunges, high knees (5 minutes)
- Activation Exercises: Glute bridges, monster walks (3 minutes)
- Progressive Run: Walk 2min → jog 3min → run 5min (5 minutes)
- Sport-Specific Drills: A-skips, B-skips, butt kicks (2 minutes)

❄️ ■ Cool-down Protocol (10-15 minutes)

- Active Recovery: Easy walk or jog (5 minutes)
- Static Stretches: Hold each 30 seconds, no bouncing
- Focus Areas: Hamstrings, quads, calves, hips, IT band
- Foam Rolling: 1-2 minutes per muscle group

■ Essential Strength Training (2-3x per week)

- Lower Body: Squats (3x12), Lunges (3x10 each), Calf raises (3x20)
- Core: Plank (3x45sec), Side planks (3x30sec each), Dead bugs (3x10 each)
- Hip Stability: Clamshells (3x15 each), Glute bridges (3x15), Monster walks (3x10 each)
- Upper Body: Push-ups (3x10), Rows (3x12), Overhead press (3x10)

■ Recovery Strategies

- Sleep: 7-9 hours nightly, consistent schedule
- Nutrition: Protein within 30 minutes post-run, anti-inflammatory foods
- Hydration: 2-3L daily + electrolytes on long run days
- Active Recovery: Swimming, cycling, yoga on rest days
- Massage: Professional monthly + self-massage weekly

■■ Warning Signs - When to Stop

- Pain that increases during run (vs. decreases with warm-up)
- Sharp, stabbing, or localized pain
- Pain that causes limping or form changes
- Swelling, redness, or warmth in joints/tissues
- Pain that persists >24 hours after rest
- Night pain or pain at rest

■ Equipment Management

- Running Shoes: Replace every 500-800km or 6-12 months
- Rotation: Have 2+ pairs, alternate to extend life
- Proper Fit: Shop in afternoon, thumb-width space at toe
- Surface-Specific: Road shoes for pavement, trail shoes for off-road
- Monitoring: Check for uneven wear patterns, midsole compression

■ Smart Training Progression

- 10% Rule: Increase weekly mileage by max 10% every 2-3 weeks
- Recovery Weeks: Reduce mileage by 20-30% every 4th week
- Hard/Easy Balance: Follow hard days with easy or rest days
- Listen to Body: Use perceived exertion scale 1-10, stay at 6-7 for easy runs
- Cross-Training: Replace 1-2 runs weekly with low-impact activities

Consult with a healthcare professional before beginning any new training program
